

FACT CARD BOOKLET

This booklet includes the necessary information that will help in guiding the pharmacist to render advice in self medication and common ailments that are frequently presented by patients in the community pharmacy . it includes definitions of diseases, their causes, self care advice given to patients, trigger points indicative of referral to the physician and a review of OTC medications that can be dispensed for the management of each ailment.

The community pharmacist will find this booklet a good guide and companion as a continuing professional development resource.

تباع النسخة بمبلغ (٤) دنانير لدى مقر النقابة في عمان وفي مختلف اللجان الفرعية .
